Shipping & Delivery

I will be shipping goods out to the exhibition and plan to use Schenker.

I do not plan to use Schenker for my freight forwarding. I understand that my carrier will need to deliver my goods to the Schenker Warehouse and that I must contact Schenker to arrange delivering the goods from their Warehouse to the venue

I will be using a local non-official contractor and will ensure that they contact Schenker to arrange how my stand build materials can be delivered & removed into/from the Exhibition area (In case that my contractor let booth material after the dismantling, I consent to be charged with cleaning services & bin rental services)
